|  | 40BA | Rear Anti-Roll Bar Bush 29mm | 4041490 | 2 |

Why do they last longer?

Polybush products are engineered for endurance. Our high-grade polyurethane resists oil, fuel, and road grime, maintaining its shape and integrity even under tough conditions. With superior abrasion resistance, these bushes last up to 4-5 times longer than standard rubber or cheaper alternatives.

FORD

Fitting Polybush

Installation is a breeze. Designed for use with standard workshop tools, Polybushes feature an interference fit that ensures a secure, maintenance-free installation without the need for grease.

This means less downtime and more confidence on the road.

What are the benefits of Polybush?

Beyond longevity, Polybushes improve vehicle performance. They maintain consistent suspension geometry, which translates to responsive steering, better handling, and reduced tyre wear. In short, you get a reliable, cost-effective upgrade that enhances both durability and driving dynamics.

ABOUT US

Polybush's use of high quality pure materials offers immense flexibility and resilience, providing original ride comfort with the durability of Polyurethane. Our in-house design and development team ensures that Polybush suspension products continue to meet the changing demands in automotive market.

All our bushes are designed and engineered to exacting specifications, keeping the suspension working as the manufacturer intended.

Key features and benefits to fitting Polybush:

- Easy to fit- the original fit and forget
- Less Downtime- Keeping your vehicles on the road
- Reduced MOT Costs
- Lasts 4-5 times longer than original rubber bushes
- Controlled suspension movement
- Impressive & confident ride
- Prolonged tyre life
- Unaffected by oil, fuel and road contaminants
- Fixes premature bush failures
- No requirement for specialist tools
